

AT THE COST OF WAR THE SENATE VOTES

LEGISLATORS DECIDE TO AID THE CUBAN PATRIOTS.

Resolutions Declaring Belligerency and Demanding Independence, Passed, 64 to 6, After a Most Interesting Debate—House Postpones Action—General Washington News.

Washington, Feb. 29.—By the overwhelming vote of 64 to 6 the senate Friday adopted a concurrent resolution favorable to Cuban belligerency and independence. The resolutions as adopted are as follows:

"Resolved (by the senate, the house of representatives concurring). That in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States.

"Resolved, That the friendly offices of the United States should be offered by the president to the Spanish government for the recognition of the independence of Cuba."

The final vote on the adoption of the resolution was as follows:

Yeas: Republicans—Allison, Baker, Brown, Burrows, Cameron, Cannon, Carter, Chandler, Clark, Cullom, Davis, Dubois, Elkins, Frye, Gallinger, Gear, Hawley, Lodge, McBride, McMillan, Mantle, Mitchell (Ore.), Nelson, Perkins, Pritchard, Proctor, Quay, Sherman, Shoup, Squire, Teller, Thurston, Warren and Wilson. Democrats—Bacon, Bate, Berry, Call, Cockrell, Daniel, Faulkner, Gibson, Gorman, Gray, Hill, Irby, Jones (Ark.), Lindsay, Martin, Mills, Morgan, Pasco, Roach, Smith, Turpie, Vest, Walthall, White. Populists—Allen, Butler, Jones (Nev.), Kyle, Peffer, Stewart.

Nays: Republicans—Hale, Morrill and Wetmore. Democrats—Caffery, Chilton, George.

Total yeas, 64; total nays, 6.

When this result was announced the densely packed galleries broke into long-continued applause, which the vice president checked with difficulty.

The main feature of the debate was the speech of Senator Sherman, chairman of the committee on foreign relations. Other speeches were made by Messrs. Lindsay (Ky.), Lodge (Mass.), Caffery (La.) and Allen (Neb.). The voting began at 4 o'clock, according to agreement. It was simplified by the withdrawal of conflicting amendments, so that only three votes were necessary. The first dispute of the resolution of Mr. White (Cal.) limiting the act of congress to a request on the president to grant belligerency. This was tabled—57 to 12. The amendment of Mr. Allen, directing the president to recognize the Cuban republic as independent, met like defeat—52 to 17. Then came the final vote as above recorded.

At 1:15 p. m. Mr. Sherman began his speech, closing the debate. He said he felt that the time had come when the United States must intervene to put an end to crime almost beyond description. The organization of the Cubans was as complete as the United States had during the revolutionary war. The rules of war observed by the Cubans were humane and honorable, showing none of the barbarous ferocity of the Spanish troops. It was in striking contrast with the murderous course of Gen. Weyler, the Spanish commander. Turning to the material interests between the United States and Cuba, he showed that the trade from the island to this country was \$82,000,000 annually, and the trade from the United States to Cuba \$19,000,000. "But mark it," said Mr. Sherman, "I do not favor the annexation of Cuba to the United States. In my judgment the island should become a part of Mexico, being of the same people, and I would like to see that end accomplished."

Mr. Sherman referred to the recall of Gen. Campos, a humane soldier, and his succession by Gen. Weyler, who has been well christened "the butcher." The senator went on to give extracts from recent interviews with Weyler in which he spoke of "exterminating the Cubans." These showed him to be, said Senator Sherman, a demon rather than a general. Then the senator added: "If this continues no earthly power can prevent the people of the United States going to the island, sweeping over it from end to end and driving out these barbarians." Mr. Sherman said every Christian heart, every American heart, revolted at this rule of oppression. We did not want any Armenia at our doors. We should not shield ourselves like Great Britain by saying that Armenia was too far away. Cuba was right beside us. The rules of civilized society, the spirit of the age demanded that Spain should be compelled to stop these cruelties. Not only the United States but the countries of the world would unite in this demand. And if Spain failed to heed it and Weyler carried out his projected plans there was not a point on the American hemisphere which would not send its people to put an end to the infamy.

Mr. Gallinger followed. He graphically pictured the wrongs which Spain inflicted on the Cubans, quoting many newspaper articles, and declaring that Gen. Weyler was beginning to live up

to his fame. In conclusion, he said: "God speed the day when Cuba shall be free."

Mr. Frye (rep., Me.) said: "I am heart-sick and tired to see day after day this splendid republic of ours doing police duty for the most wicked nation on the face of the earth." In closing he said he would vote for anything that would aid the cause of the patriots who were so successfully struggling to wrest liberty from the grasp of a relentless despotism.

Senator Caffery (dem., La.) took an opposite view on the question. He declared that Spain must be treated as belonging to the family of civilized nations, and said all rules of international law should prevail in the dealings of this nation with the rebellion. What had we, asked the senator, to warrant a declaration of belligerency, much less of independence? There was not a scintilla of actual evidence warranting this action. If we interfere in the affairs of Cuba, said he, we do so with the implied threat that we will protect Cuba. Against the powers of the United States Spanish chivalry and valor would not last half a campaign. Weak as Spain is, she would resent an unwarranted interference. Lest we incur the imputation of bullying a weaker nation the United States should move with caution. Mr. Caffery opposed the resolutions because congress had no power and the facts did not warrant action if we had the power.

Mr. Allen (pop., Neb.), read an argument as to the legal right of congress to recognize independence. The senator said he would not only recognize Cuba but he would establish her as one of the nations of the earth and for that purpose would summon our armies and fleets to Cuba's aid. Let war come, it should not check us in our duty.

At this point numerous amendments, some verbal, were offered. One by Mr. Call proposed a proclamation by the president recognizing the independence of Cuba.

Mr. Cameron (rep., Pa.) offered an amendment for extending the friendly offices of the United States to Spain for the recognition of the independence of Cuba. "I am authorized by the committee on foreign relations to accept that amendment," said Mr. Sherman.

Mr. Sherman moved to lay on the table the resolution of Mr. White (Cal.) requesting the executive branch to grant belligerency and adding sympathetic expressions. The motion prevailed—yeas 57, nays 12.

Mr. Allen offered an amendment which was also laid on the table. The vote now came on the resolutions of the committee on foreign relations. Mr. Morrill sought to have the resolutions divided, but the presiding officer held that it was out of order. The roll call proceeded amid breathless interest, although it was plain that the resolution was overwhelmingly carried. The vice-president announced the adoption of the resolution—yeas 64, nays 6. For an instant there was a lull, and then, when the galleries realized that the resolutions were adopted by an overwhelming vote, there was a burst of applause, which the presiding officer checked by a vigorous rapping of the gavel.

Proceedings in the House.

Washington, Feb. 29.—There was an enthusiastic demonstration in the house Friday when Secretary Cox, of the senate, appeared and announced the passage by the upper branch of congress of the Cuba resolutions, but the matter did not come up in any other form during the day. After encountering the unexpected opposition of Mr. Boutelle Thursday the house leaders concluded to postpone taking up the resolutions until the legislative bill was disposed of. The whole day in the house was spent in the consideration of the legislative appropriation bill and considerable progress was made. The conference report on the pension appropriation bill was agreed to.

Proposed Lake Survey.

Washington, Feb. 29.—The speaker on Friday laid before the house a response from the secretary of war in reply to the resolution of the 11th instant directing him to furnish information and estimates relative to the cost of making a survey of the outlet of Lake Erie and other lakes and rivers. The chief of engineers repeats a former statement that a thorough investigation should extend over a sufficient time and eliminate accidental fluctuations and cover all stages, and may have to be continued several years. These surveys and investigations will cost approximately from \$150,000 to \$175,000.

NO CONTRACTS FOR BODIES.

Des Moines Medical College Faculty Denies Ugly Charges.

Des Moines, Iowa, Feb. 29.—The executive committee of the board of trustees of Drake university held a meeting Friday to investigate the faculty of the university medical college, which has been vigorously assailed on the charge that it has been systematically buying bodies for dissection from grave robbers and encouraging the desecration of graves. It was charged that the faculty had made a contract with a gang of grave robbers to take from them seventy-five bodies. The members of the faculty of the medical department denied all knowledge of any such deals, and the committee was unable to secure any evidence that such methods had been employed.

WERE TORN TO PIECES BY A DYNAMITE CHARGE.

They Were Tamping a Blast When It Was Prematurely Discharged—Thomas and James Casey the Victims—Desperate Crime at Jefferson—Other Wisconsin Happenings.

Monroe, Wis., Feb. 29.—[Special]—A fatal accident occurred near here late yesterday afternoon. The dead: CASEY JAMES, miner, aged 28. CASEY THOMAS, miner, aged 33. The accident occurred in the town of Adams, where the two men, who are brothers, were mining for lead ore. Desperate Crime at Jefferson

Jefferson, Wis., Feb. 29.—[Special]—The body of the man who shot at at Lewis at Jefferson was found, burned to a crisp, in the ruins. His name was John Wright, and his home is at Fort Atkinson.

Jefferson, Wis., Feb. 29.—A desperate crime, the gathering of a mob and the escape of a would-be murderer started this quiet town Friday night. When L. M. Smith, secretary and treasurer of the Wisconsin Furniture Manufacturing company, entered his factory shortly after 7 o'clock in the evening for the purpose of making a tour of inspection, an unknown man stepped out of the darkness, and, holding a revolver up to Mr. Smith's head, fired. The bullet entered above the left eye, grazed the forehead and came out upon the right side of the forehead. Mr. Smith grappled with the assassin, and his cries for help attracted assistance. When he saw that he could not get through the crowd, the would-be murderer retreated to an upper floor in the building.

When between 500 and 600 people had gathered, there were cries of "Lynch him! Lynch him!" A score of men started up the stairway, but were soon halted by the reports of the unknown's revolver, and the whizzing sound of bullets as they sped past their heads. In the darkness the man could not be seen. For two hours he kept the big crowd at bay. Suddenly a crackling sound appeared upon the top floor, followed by a cloud of smoke. Mr. Smith's daring assailant had fired the building. The structure was a mass of flames within two minutes. The crowd fell back and in the excitement the unknown made his escape by leaping from a window through which dense clouds of smoke were pouring. As soon as it was known that the man had escaped, a searching party was organized, and every nook and corner of the town was scoured, but no trace of him was found.

Invokes Federal Court's Aid.

Milwaukee, Wis., Feb. 29.—The Illinois Steel company has taken its case against the Jones island settlers into the federal court and will try to invoke the strong arm of the government to drive the settlers off the island. The proceedings in the justice court were inoperative. The ejectment papers in the case have been placed in the hands of the United States marshal, but it is not known how soon he will attempt to serve them. The islanders are not a bit awed, and declare that they will resist service, no matter if the United States government is back of the steel company.

Immigration Association Organized.

Eau Claire, Wis., Feb. 29.—The immigration convention adjourned Friday evening after effecting a permanent organization of the Northern Wisconsin Immigration and Improvement association. H. C. Putnam, Eau Claire, was elected president. The association will issue a journal devoted to advertising northern Wisconsin. Addresses were delivered at the closing session by Prof. W. A. Hendy of the agricultural college of the State university and George W. Bishop, secretary of the state board of immigration.

Comptroller Eckels Talks on Currency.

Boston, Mass., Feb. 29.—James H. Eckels, comptroller of the treasury, spoke before the Reform club Friday night on "The Currency." He paid a tribute to the influence of the independent in politics. He said there could be no permanent cure for our financial ills until the inflationist was dislodged. Ignorance of monetary legislation was, he thought, the cause of the movement for silver-coinage.

THE TRADE REVIEW HAS A GOOD TONE

BUSINESS SHOWS IMPROVEMENT IN THE WEST.

Dun & Co's Report Says a General Hopefulness of a Change for the Better Prevails—Labor Difficulties Are Few—The Week's Failures Show an Increase.

New York, Feb. 29.—R. G. Dun & Co's Weekly Review of Trade says: "In some quarters, business gains are noted in the west rather than at the east, but there is no general change for the better, although hopefulness still predominates. The want of sufficient demand for the products of great industries still retards actual improvement. Strikes of some importance in garment making and kindred lines affect trade in Chicago and Baltimore, but there are fewer labor difficulties than usual, as existing conditions warn wage-earners that controversies at this time are unwise.

"Wheat has taken an upward flight, advancing 3 1/4 cents for cash and 2 1/2 cents for May, with rumors of foreign supplies as the only basis. Estimates of wheat in farmers' hands are lower than last year but still indicate with visible stocks a supply much beyond probable needs. Western receipts have been 2,351,373 bushels, as against 1,699,759 last year, and for four weeks of February 10,709,144, against 4,910,446 last year. In the presence of such receipts Atlantic exports of 7,043,577 bushels, flour included, against 6,006,218 for the same weeks last year, have no real weight, but a larger movement hereafter is expected.

"Cotton has been weaker, with only fair receipts, the important decline in goods having much influence. The price of middling uplands has declined a sixteenth, and preparation for a large increase of acreage is still reported.

"The market for textile goods is disappointing. It is not to be forgotten that the mills are getting an average of about 6 per cent more for goods than a year ago, while paying 28 per cent more for cotton. Woolen mills are receiving considerable orders for spring goods, but business for the future does not mend. Clay worsteds are again a shade lower. The range for all woolsens is scarcely 1 per cent higher than a year ago, although wool is more than 7 per cent higher, and a good many mills are closing or reducing time. Prices are still unchanged, as the demands of foreign manufacturers for the American market keep up abroad.

"The feature in iron has been the large demand for wrought and cast pipe, 200 miles of wrought having been taken for the Standard Oil company and some for other companies, with 150 miles wanted for Russia, while New York contracts for 2,500 tons cast pipe have been placed at the lowest prices ever known, \$17.50 to \$17.65 per ton. Large orders for structural work are received at Chicago and expected at the east, as building plans are unusually large, but sheets sell slowly and rails very little, though bar is fairly active, with many orders for cars. Iron quotations average 2 per cent lower for the week, because of the drop in Bessemer at Pittsburgh to \$12.50 and in gray forge to \$10.75.

"Failures for the week have been 278 in the United States, against 250 last year, and fifty-eight in Canada, against thirty-eight last year."

MOTION FOR NEW TRIAL.

Hinsshaw's Appeal on the Ground of Error and Insufficient Evidence.

Indianapolis, Ind., Feb. 29.—The attorneys for the Rev. William E. Hinsshaw filed their motion for a new trial with the supreme court Friday. The case is appealed on the ground that the verdict of the jury is not supported by the evidence and that Judge Hadley erred in not granting the motion for a new trial. No reference is made to any new evidence that has been discovered. The friends of the minister employed a Pinkerton detective to discover new evidence, but his work was fruitless. The supreme court will be asked to advance the case and pass upon it at an early date. Hinsshaw has been in prison since November 1, and Warden Hert says he is making a model prisoner.

No Talk of Street-Car Strikes.

Philadelphia, Pa., Feb. 29.—Officials of the Union Traction company, which controls all the street railway lines in this city, with one exception, say that they know nothing of the contemplated strike of the company's motormen and conductors for ten hours a day and pay at the rate of 20 cents an hour. President Mahon of the Amalgamated Association of Street Railway Employees, who announced Thursday that a general demand would be made in several of the large cities for uniform hours and wages, could not be seen. The Traction officials say no fresh demand has been made for a revision of the present schedule, and as far as they know the employees are satisfied.

Clara Barton Wins.

United States Minister Terrell accompanied Miss Barton and her party to Selamluk.

PASS ARIZONA LAND CASE BILL

Washington, Feb. 29.—The house today passed the Arizona land case bill over the president's veto. The vote was 200 to 30.

IOWA GENERAL ASSEMBLY.

Woman Suffrage Proposition Defeated in the Lower House.

Des Moines, Iowa, Feb. 29.—Woman suffrage in Iowa was defeated in the house Friday. A resolution by Funk to submit the adoption of a constitutional amendment giving women the right to vote was defeated by a vote of 49 to 44, the resolution being defeated because it did not receive a two-thirds vote in its favor. The vote was taken after a long debate.

The house passed the senate bill by Kilburn for free text-books in school districts. It now only requires the signature of the governor. The Reed bill to make it compulsory upon directors to furnish free books was defeated.

The age of consent bill, recently passed by the senate in defective form, was taken up on recommendation for remedial action. Several amendments were made to it and it was finally referred to the code revision committee for report. The friends of the measure regard the action of the senate as fatal to the project to raise the age of consent in Iowa above 13 years.

INDIANA SUPREME COURT.

Sentence of the Jury in the Thomson Case Upheld.

Wabash, Ind., Feb. 29.—The supreme court of Indiana has made a decision in a case of a peculiar character. Soon after the failure of the Arnold bank at South Whitley in 1893, involving a loss of over \$100,000 to depositors, James Arnold, principal owner and manager, disappeared, and his cousin, Thomson, who was interested in the concern, was arrested for receiving deposits after the bank was known to be insolvent. After a trial of a week he was convicted, and the jury on Dec. 5, 1894, fixed his punishment at one year in the penitentiary. The law, however, fixed the minimum penalty of two years for the offense of which he was convicted, and the judge declined to pass sentence, holding that the statute would not admit of a lighter sentence than two years. Arnold's attorneys appealed, and the supreme court decides that the sentence of one year must stand.

IN MISSION FIELDS.

Statistics of Foreign Work of Friends' Yearly Meetings.

Richmond, Ind., Feb. 29.—A new feature has been added to the minutes issued by the Indiana Yearly Meeting of Friends, which is held here in the fall of each year, showing the mission work being done by the various Yearly meetings. This information is quite interesting and shows that the mission field is one in which the denomination is broadening out. The countries in which work is now being done are: Mexico, Palestine, Japan, India, Alaska, Jamaica, Syria and China. There is a total of forty-two missionaries, twelve males and thirty females, with seventy-three native helpers. There are sixteen churches, and 793 members; twenty-eight Sunday schools, and 1,092 Sunday school scholars; and 834 pupils. During the last year \$32,661 was contributed for the work.

Oppose Free Silver.

Indianapolis, Ind., Feb. 29.—The republican editors of Indiana, at their annual meeting here Friday, passed a resolution opposing the free coinage of silver. The action of the republican state committee in deciding to bring suit to set aside the apportionment laws still in force was indorsed, and Gov. Matthews was condemned for refusing to call a special session of the legislature. The editors also indorsed the last legislature. Charles E. Wilson, editor of the Lafayette Courier, was elected president of the association.

Two Kansas Democratic Conventions.

Topeka, Kas., Feb. 29.—The democratic state central committee met here Friday and called two state conventions, the first for the election of national delegates to be held at Hutchinson June 3 and the second for the nomination of candidates for state offices Aug. 4. The only contention in the committee was over the basis of representation, the vote of 1894 being agreed upon. This was a victory for the free-silver wing of the party, as in that year the most of the democratic votes came from the agricultural counties.

Immense Cost to Spain.

Madrid, Feb. 29.—The papers here publish some curious statistics as to the cost of the Cuban war. Nearly 118,000 men have been sent to the island and the cost of the rebellion has already amounted to 10,000,000 pounds (\$50,000,000) and for the second year it will exceed 15,000,000 pounds (\$75,000,000). Captain General Weyler reports that it will take at least two years to crush the rebellion.

CUBANS PLEADED WITH THE RULING

INFRACTION OF NEUTRALITY LAWS NOT PROVED.

Step Taken by United States Authorities in the Bermuda Case Gives Great Satisfaction—Ship Was Illegally Carrying Explosives—Government Had No Authority.

New York, Feb. 29.—The United States authorities have taken a step in the Bermuda case that gives great satisfaction to the Cubans. Heretofore there had been no legal process in connection with the seizure of the steamship and the lighter James S. T. Stranahan and the lighter's cargo of arms and ammunition. They were detained under executive orders, the president of the United States having power to act in such cases, but no court authority had been brought into requisition, except in the case of the men for whom warrants had been issued. James J. Macklin, attorney for McCaldin Bros., who own the steamer Stranahan, made a demand on the United States marshal Wednesday for the release of the lighter. He was asked to wait until the district attorney could look into the matter and readily acceded. District Attorney McFarlane last night filed a libel and information on behalf of the government against the cargo of the Stranahan, described as containing 300 packages of gunpowder and dynamite, cartridges and other substances of like character.

Speaking of the case Horatio S. Rubens of general counsel for the Cubans said: "The action of the district attorney shows that he has abandoned the idea of acting on the ground of infraction of the neutrality laws. He thus introduces a novelty in such cases. There was no warrant for the government's action on the lines followed, because in all the cases that have gone before based on the neutrality laws the government has failed."

Entire Family Asphyxiated in an Illinois Village.

Chicago, Feb. 29.—Three of a family of eight are dead and the others dying as the frightful result of the escape of coal gas yesterday morning in the residence of Fred Stuenkel, a farmer living a few miles southwest of Chicago Heights, near Crete, Will county. Physicians attending the family say the mother and four of the Stuenkel children will die. The father, the oldest daughter, Rosamond, aged 13, and his 4-year-old child, Della, are already cold in death. The dead: STUENKEL, Fred, aged 45, the father. STUENKEL, Rosamond, aged 13. BOY'S TERRIBLE CRIME.

Nineteen-Year-Old Chicago Youth Commits Murder and Suicide.

Chicago, Feb. 29.—At 10:30 o'clock Friday morning the bodies of Flora Labig, 17 years old, and Edward Peters, 19 years old, were found in the basement of 350 West Fourteenth street, where Peters had lived. Both bodies were cold and had evidently lain in death since about 10:30 o'clock Thursday.

The girl, who had lived at 123 Brown street with her parents, had been killed by the young man, for she had a gaping bullet wound behind the left ear. Peters' death was then the result of suicide and was caused by a shot in the right temple. It is believed the tragedy was the result of a strong attachment existing between the young people and which was opposed by relatives.

Root for the Spanish.

Tampa, Fla., Feb. 29.—Letters from Havana bring the details of the battle at Palo Prieto, between Santa Clara and Placeta, about Feb. 20. The result is considered more important than the battles of Peralejo Coliseo or Lancacanos. Strafin Sanchez commanded the Cubans and General Palanco the Spanish. The outcome was the greatest triumph the Cubans ever had, the Spanish loss being 700. General Palanco was severely wounded and his horse is now in the possession of Quintin Bandera. In their flight many Spaniards threw themselves into the river.

New York, Feb. 29.—Only four original members remain of the Society of Veterans of the War of 1812, this quartet, re-enforced by representatives of the Grand Army and other organizations, held their annual reception on Friday and rehearsed recollections of the battles, forced marches and other experiences in which they were concerned eighty-four years ago.

pay." Dr. Stillman's concert Monday night was attended by a fair sized audience. The concert was first class in all respects. There was a number of musicians from Milton who took part besides the best talent of this place. Mrs. Lovejoy of Janesville, favored the audience with a song by request. Mrs. Stiffens has a son from Ohio visiting here. Mr. Herkner from India, has rented a shop on Vernal avenue and is to use it for a harness shop. Owing to the session of the Quarterly meeting at Milton there will be no services in the Seven Day Baptist church here next Sabbath. Miss Nettie Coon was down town Thursday for the first time in several weeks, having been confined at home by the grip. Mrs. Frank Merritt and Mrs. Robert Stockman attended the funeral of their aunt, Mrs. Shipman, at Stoughton, Tuesday. Mr. and Mrs. Elmer Barnes of Fort Atkinson visited relatives here Friday and Saturday. Everybody will attend the "Fair" at Janesville, next week. The case of E. T. Burdick arrested for selling liquor without a license has been postponed until March 5. Mr. and Mrs. Maltress of Edgerton, visited at Cyrus Frink's the past week. Mrs. Fred Burdick has been quite ill with the grip, so she was unable to take her part in the concert Monday night. Miss Leo Coon of Milton took her place. Frank Stone, of Stone & Osborn has been quite sick but is improving. The M. B. ladies fair Thursday netted them about \$30 from the evening entertainment. The Patriotic exercises at the P. of H. hall Saturday night was very entertaining and attended by a goodly number. The children will remember Washington's birthday for some time. Mrs. E. D. Coon has taken the agency for Smith & O'Connell's tapestry paint, and will also learn how to use the same. Mrs. Ed. Butts, of Delavan, visited her parents here the past week. William Little, of Albion, visited his daughter, Mrs. Buten, at this place, the past week. It is said he intends to buy a home here. Mr. and Mrs. Clark Palmer, of North Johnstown, visited in town Saturday. Mrs. Mattie Clarke, of Eau Claire, is in town with relatives. Charles Clark is still in Walworth, in attendance on his sick mother. Rev. Burrows, the evangelist, called at Mr. Vanlone's Thursday. Almost every lady in town, able to be out, visited the seed car of Salsar Bros., of South Dakota, which stood on the track here Thursday.

SALVINI MAY PLAY HERE AGAIN

That Is, If He Accepts Manager Stoddard's Terms.

Manager Stoddard has been in correspondence with Alexander Salvini's manager for some time, trying to make arrangements for the great actor to appear here. Salvini insists that all the seats on the first floor shall sell for \$1.50 while Manager Stoddard will not sign the contract unless the price is placed at \$1 for the first floor. Manager Stoddard says \$1 is enough and a just price for all concerned, so the people should be asked to pay no more. Past experience with expensive attractions has demonstrated this claim to be correct and as he refuses to recede from the position that his patrons shall not be charged more than a reasonable price, Salvini will come to Janesville or not as his manager elects. Mr. Stoddard proposes to get good attractions but if they do not play at a fair price he will not book them.

TELEPHONE CO. EXTEND LINES

Toll Service Will Be Much Improved The Coming Season.

Preparations for the extension of the long-distance telephone lines in the state are now being made by the Wisconsin Telephone company. The improvement will give Janesville much better service. It is the present intention to extend their service to a distance of one thousand miles reaching the western cities and placing them in communication with the Bower City. Janesville cannot now reach cities further north than Merrill and Menominee, but under the new rule La Crosse and other important towns can be reached.

"The Milwaukee officials expect the Janesville office to do a big business this summer," remarked a local employe, "and from the way business is holding up, there is little reason to believe that it will not."

HE CHASED A UNION MAN OUT

Proprietor Thought His Non Union Employee Was Being Converted.

The Union and non union barbers of the Bower City are not on very good terms as was shown by an event that transpired in a local shop on Milwaukee street. The proprietor of a non union shop had secured the services of a new man and while the aforementioned proprietor was out, a union man happened to drop in and began to tell the new man funny stories. While they were thus engaged in walked the owner of the place. He accused the union man of trying to win the employe and a wordy war followed the result being that the union man abandoned the field with considerable haste.

SCHOOL TEACHERS CAST AWAY

How Nineteen Janesville Girls Set Sail Without Clearance Papers.

Nineteen Janesville school teachers were "shipwrecked" this morning, and their friends are now hoping that a grasping corporation will deal with them leniently.

The nineteen teachers, under convoy of Superintendent D. D. Mayne, dropped anchor at the U. & N. W. depot at 6:30 o'clock this morning. Their sailing orders read "go to Evansville and attend the teachers' institute," and they proposed so to do. The company had given them excursion rates on proviso that they all sail on one clearance paper. Commodore Mayne stepped up to the captain's office and said that the fleet would like to clear for that village. The captain was a bit slow in making out the paper, and Commodore Mayne suggested that he bely the red tape and "vast heaving on the formalities."

"You have time to sell," replied the clearance officer.

In the meantime the fleet had climbed aboard the flagship that was due to leave for Evansville at 6:30. Then the harbor master suggested to the captain of the good ship, that he weigh anchor. The engineer got the signal, the wheels revolved, and as Professor Mayne came out with the clearance papers, he saw the flagship pull away from the wharf and trim its sails for the "Cut Off village." In the cabin were the nineteen teachers, who could not show cause why they should not be put off at the Three-Mile Creek crossing, while Commodore Mayne stowed the clearance papers in the hold of his e-at.

How the nineteen teachers explained to the captain of the ship that they could be upon the high seas without proper sailing credentials, is not yet known, but Commodore Mayne left on the noon train, and hoped to be able to arrange matters before the unwilling violators of the nautical laws were thrown into a dungeon on the charge of piracy.

It not only is so, it must be so. One Minute Cough Cure acts quickly and that's what makes it go. C. D. Stevens.

LEAF TRADE BETTER
AND OUTLOOK GOOD
JANESVILLE MARKET BRIGHT
IN SPOTS.

The Transactions of the Local Dealers during the Past Week—Export Goods Are Being Purchased—State of Affairs at Edgerton—Some Local Weed Briefs.

Local tobacco market conditions are bright in spots, says The Janesville Leaf, with indications of further improvement in the near future. The '95 crop does not meet with increased favor, but old goods are slightly more in demand, more especially filler grades. Old fillers that were offered at 2 cents last fall are now held at 2 1/2 cents. There is a better demand for suitable goods of all grades. George H. Rumrill sold two cars of '92 by telegraph and 19 cases of '93; S. B. Heddles sold 33 cases of '92 and '93; Robert Erier bought 25 cases and 2,200 pounds of old goods for strips.

Those doing a retail business report a slight increase in the demand, and better shipments. A. N. Jones shipped 100 cases of '93 to New York Thursday. This is one of the finest lots of that crop that has left this market and there are 300 cases left.

A large number of farmers are on the anxious seat regarding their '95, as if they do not sell at once, they will have to assort and pack, a thing which the majority of farmers have an aversion for. It seems to us that it would be better for them to pack than to make the sacrifices that some are making in what is in reality a forced sale, as but few of the packers will take the '95 unless it is sold at an extremely low price.

Moderate Business at Edgerton
The Edgerton reporter says the week at that place has developed no features in the tobacco trade. A moderate business continues at a few of the market points in cured leaf while fillers of the new crop are being bought by a few packers. The other grades of the '95 are neglected while the search is made for cured leaf for the export opening. The only exception here has been about 200 cases of the new recently contracted for by Phil Bonn. The aggregate transactions of the week however will fall below the average of some time past. Sales reaching us since last report are:

E. Johnson, 20 cases '94 at 5c.
Ben Lewis, 34 cases '93 at 5c.
G. W. Arms, 12 cases '93 & '94 at 6 & 2 cents.
E. Doane, 20 cases '94 at 5, 3 & 1 1/2c.
S. P. Hart, 15 cases '94 at 5 & 3c.
Porter & Mableson, 14 cases at 3 1/2 & 3 cents.

A few lots have changed hands among packers during the week. T. A. Ellington reports the sale of 120 cases of '92 and '94 leaf. E. C. Hopkins bought 30 cases of a Deerfield packer and T. B. Earle sold a 36 case lot of '92. A. S. Flagg has purchased an 86 case lot of '92 from a Stoughton packer.

The shipments of the week from this station reach a total of 300 cases to all points.

Some Local Leaf Notes.
Mr. Guenther, of Cincinnati, was a recent visitor in our market.

Robert Erier has a force at work on an excellent grade of long strips.

M. S. Taylor, of the Industrial Cigar Co., started on his maiden trip from this city Tuesday, going southward.

G. W. Spitzer, of New York, accompanied by W. H. Child, of Edgerton, looked over Janesville samples Monday.

A. N. Jones shipped two cars of '93 to New York Monday. This was one of the finest lots we have seen, and Al. has 300 more just as fine.

The many friends of Albert Schnell will be pleased to know that he is quite himself again, after a severe illness caused by internal disease.

George H. Rumrill, the Center avenue hustler, recently received two telegrams in one day, each closing the sale of a car of '92. This reminds one of the good old times gone by.

Elmer Withral of Centralia, Wis., started this week on a trip through this state in the interest of Albert Scannell of Milton avenue, leaf dealer and grower. Mr. Withral and family will move to this city next May. Mrs. Withral having real estate interests in this country, the being a daughter of the late John Austin.

FAVOR MR. SPOONER
FOR THE SENATE

SEVERAL JANESVILLE REPUBLICANS INTERVIEWED.

Nearly All of Them Who Were Seen, Favor Sending the ex-Senator Back to Washington—Canvass Made by the Milwaukee Journal—What They Said.

Janesville republicans seem to favor John C. Spooner for United States senator. The Milwaukee Journal instructed all its correspondents to interview a number of citizens and telegraph the result. The Janesville correspondent replied as follows:

"Janesville Republicans are solid for Spooner for United States senator. Your correspondent has interviewed a hundred or more republicans, representatives of all classes, and the answers received are unanimous. The following are the interviews:

"James A. Fathers—Spooner is my man. In fact, he ought to be in the senate now, and we can't get him back there any too quick.

"S. C. Burnham—Spooner is the only man for the place. Everybody is for him.

"Henry S. Sloan—Spooner all the time. There is no man better qualified for the position.

"S. B. Heddles—Spooner is the only man mentioned, and so far as Janesville and Rock county are concerned, he will have a clear field.

"J. C. Wilmarth—Spooner's election would reflect more credit upon Wisconsin than any move which the legislature could make.

"W. H. Burchell—No better man than Spooner. I have known him for a long time.

"A. E. Badger—I have heard very little about the senatorship but from what I hear I believe Spooner will be the winner.

"Dr. W. H. Judd—Spooner is my man for senator.

"David Conger—Spooner is a good man, but I have heard a few whispers favorable to the election of ex-Governor Hoard. When the time comes Hoard may prove a strong candidate if not a winner.

"Stanley B. Smith—I like Spooner, and believe he will be elected.

"E. Ray Inman—I have given the matter very little thought. However, I believe Spooner will win the prize, and taking everything into account, he is the best man.

"W. T. Vankirk—John C. Spooner is the man for Rock county.

"John W. Sale—Spooner. He is the best equipped man in the state for the place.

"J. M. Bostwick—Spooner is the man.

"E. D. McGowan—Let's see. There is Spooner and LaFollette. Put me down for John C. Spooner. I believe he is the best man for the place.

"John Thoroughgood—Spooner is my man."

J. W. Pierce, Republic, is, says: "I have used one minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. I will never fail to recommend it to others, on every occasion that presents itself. C. D. Stevens.

Quick in effect, heals and leaves no scar. Burning, scaly eruptions quickly cured by DeWitt's Witch Hazel Salve. Applied to burns, scalds, old sores, it is magical in effect. Always cures piles. C. D. Stevens.

GRATIFYING RESULTS.

Interesting Experiments with the New Stomach Remedy.

Not a Patent Medicine, But a Safe Cure for All Forms of Indigestion.

The results of recent investigation, have established, beyond question, the great value of the new preparation for indigestion and stomach troubles; it is composed of the digestive acids, pepsin, bismuth, Golden Seal and similar stomachics, prepared in the form of 20 grain lozenges, pleasant to the taste, convenient to carry when traveling, harmless to the most delicate stomach, and probably the safest, most effective cure yet discovered for indigestion, sour stomach, loss of appetite and flesh, nausea, sick headaches, palpitation of heart, and the many symptoms arising from imperfect digestion of food. The cure because they cause the food to be promptly and thoroughly digested before it has time to sour, ferment and poison the blood and nervous system.

Judge Frank Ives, of District Court of Crookston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets, with great benefit, with few exceptions, I have not been so free from indigestion in twenty-five years.

Geo. W. Roosevelt, U. S. Consul to Brussels, Belgium: Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion.

Mr. W. D. Tomlin, Mechanical Engineer, Duluth, Minn.: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.

O. E. Hanson, Hustonville, Ky.: I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if I ate one. Four boxes of the tablets from my druggist, have fully cured me. I find them pleasant to take, convenient to carry.

Rev. G. D. Brown, Mondovi, Wis.: The effect of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beef steak causes no distress since I began their use.

Over six thousand people in the state of Mich. alone in 1894 were cured of stomach troubles by Stuart's Dyspepsia Tablets.

Full sized packages may be found at all druggists at 50c, or sent by mail on receipt of price from Stuart Co., Marshall, Mich.

THIS DAY IN HISTORY.

1736—Anne Lee, founder of the Church of Christ's Second Appearance, commonly called Shakers, born in Manchester, England. "Mother Anne" settled in America, near Albany, and gathered around her a crowd of proselytes to whom she preached peculiar doctrines. One of her tenets was that marriage is sinful and to be shunned under all circumstances. "Mother Anne" had been married in England.
1888—Queen Victoria menaced by the insane Ferdinand Alfred O'Connor at Buckingham palace.
1892—Treaty signed between the United States and Great Britain referring the Bering sea fisheries dispute to a board of arbitration. The board decided in favor of Great Britain, awarding damages for vessels arrested, but the amount has not been paid.

BLAINE AND MCKINLEY.

Senator Thurston, of Nebraska, says that "had the voice of the people been heard, had James G. Blaine been nominated in 1876, there is no doubt that the republican party would have remained in power without interval, and that its policies would have continued to hold the confidence of the people." The senator, who is an ardent advocate of McKinley's nomination, appears to think the situation at present, so far as regards the leading aspirant, resembles that of twenty years ago. A combination of jealous rivals of Blaine defeated him in the convention of 1876, and a cabal of bosses are plotting, he believes, to overthrow McKinley in 1896. Conkling seems to be placed here in the same class with Quay and Platt at the present time. The parallel is not precisely accurate, but it is close enough to be worth keeping in mind.

NO BACK-DOWN.

Even if the entire mining region were solidly arrayed in defense of the bolters the republican party would make no surrender to silver. On this question of honest money—of money which, in the language of Jones, of Nevada, in his best days, "cannot lie," and which "keeps its promises to rich and poor alike"—the republican party has taken its position. To this position it will stick despite the fanatics and demagogues and regardless of the fortune which the immediate future may have in store for it. The position which the party took in the conventions of 1888 and 1892 is the position which it will take in the convention of 1896. It would be easy, to be sure, to make the silver utterance clearer, squarer and stronger than those of the years named were. Probably that of 1896 will be. In any event it will mean a dollar which at all times, in all places and under all conditions will be worth 100 cents in the world's money, gold.

The savings banks in the state of New York gained deposits during the year 1895 of \$47,214,986 and their resources on January 1 last were \$783,078,480. This money belongs to a vast number of people of small means and not many of them would be willing to have it returned to them in fifty cent dollars.

A square division on the silver question would make the canvass of 1896 interesting, but the silverites are

not so anxious for a division as they pretend to be. A contest would reveal the weakness of the silver faction and the knowledge of this is the very thing they want to keep from the public.

Rock county could have made an apportionment that would have suited the people around here better. Still the new law is a big improvement over the democratic measure and insures a fair measure of independence.

SHEEP WERE SLAIN IN DEAD OF NIGHT

THEN TWO FARMERS HAD A
LEGAL FIGHT.

Went to Law; Lawyers Talked; Jury
Listened, Then Out They Walked,
and Soon Agreed the Way To Fix
'Em, Was To Give a Verdict to
Colonel Wixom.

The proposition was like this:
Did C. B. Shoemaker's dog kill Colonel Wixom's
sheep?
If so, was the aforementioned dog actuated by
malice aforethought?
How many sheep were slain, and what was
their value under the Wilson tariff?
If the dog alleged to be owned in fee simple by
the said C. B. Shoemaker at the time the said
sheep of the said Colonel Wixom were slain,
as alleged by the said Colonel Wixom, was the
said dog, alleged to be owned by the said C.
B. Shoemaker on the said date, acting as the
agent of the said C. B. Shoemaker in the al-
leged killing of the said sheep; and was the
said C. B. Shoemaker responsible for the ac-
tions of the said dog on the said occasion?
And if so, to what extent morally, legally, and
financially?

Justice Spencer of Edgerton, was
called upon to decide a list of ques-
tions of that character with the legal
assistance of Attorney G. H. Metcalf
of that city and Attorney F. C. Burpee
of this town, but the end is not yet.
Mr. Shoemaker, and Mr. Wixom are
neighbors and reside a few miles from
this city. Mr. Shoemaker owned a
dog and Mr. Wixom owned some sheep
of high degree.

A Law Suit Followed.
One night last month Shoemaker's
dog was alleged to have visited Wix-
om's sheep and to have smote them
hip and thigh. In the course of the
argument eleven of Wixom's aristo-
cratic animals are alleged to have
been "chawed"—two fatally. Wixom
was justly wroth, and demanded
indemnity. Shoemaker denied that his
gentle dog was the General Weyer of
the farm, and also claimed that there
were others, so the negotiations ended
with a snap. Then Wixom consulted
a lawyer and Justice Spencer's court
was the scene of the attempt to reach
a legal solution of the problem. Six
men—sworn to do jury duty im-
partially—heard the case, and at 9
o'clock in the evening came to the
conclusion that the questions should
be answered affirmatively. Accord-
ingly they gave the plaintiffs a ver-
dict and assessed the damage at \$34.
Mr. Shoemaker still denies that it was
his dog that slew the sheep, and the
case will probably be appealed to the
circuit court. Mr. Metcalf appeared
for the plaintiff and Mr. Burpee for
the defense.

THE NEW RECREATION.

Will Appear in Public for the First
Time at the New High School Gym-
nasium Next Friday Afternoon—
Tie Game at the Y. M. C. Build-
ing.

Janesville girls are always "up and
coming" and the first game of basket
ball to be played by young ladies in
this "neck of the woods" will take
place Friday afternoon at 4 o'clock in
the gymnasium of the new high school.

For some time past two teams
under the leadership of Captain Eva
Mayhew and Captain Marcia Jack-
have held daily practice in the gym-
nasium. Finally they decided that
they had the game down to a science
and voted to make their first appear-
ance in public. Superintendent
Mayne after giving the matter much
study, has concluded that it is the
proper thing, and has lent his consent
and good will. A small admittance
fee will be charged and the teams will
consist of the following young ladies:

Marcia Jackman, Alice Fenton,
Harriet Rogers, Mabel Rogers,
Genevieve Hayes,
Louise Pullen, Jessie Croft,
Annie Valentine,
Maggie Murphy, Frances Ryan,
Elizabeth Weisend, Louise Neilthorpe,
Eva Mayhew.

A good sized crowd witnessed the
basket ball game in the Y. M. C. A.
building last evening between teams
of Captain Rothermel and Captain Han-
son, the game being a tie. The game
this evening is one on the regular pro-
gram and the teams will be in charge
of Captains A. K. Wheeler, and Clar-
ence Rowe. They will line up as fol-
lows:

A. K. Wheeler, C. Rowe,
J. Haggart, Forwards, C. Reswick,
Wm. Walker, M. Wise,
E. Williamson, Centers, F. Carr,
A. Abbott, H. Clay,
G. Hands, Backs, J. Kline,

EVEN though March is with us we
still find a fair demand for heavy

Monday we were fortunate enough to
secure quite a few of those heavy
double capes, made both from plain
beavers and the heavy boucles, both
capes trimmed with thibet or New
Zealand sable and just the same gar-

\$25. The price today is less than half
that figure, and as they are lined
throughout their purchase at the price
we put upon them is wise. Archie

"X RAYS" ARE USED AT THE HIGH SCHOOL

EXPERIMENTS ARE MADE IN
THIS CITY.

Professor Mayne and Professor Brown
Attempt To Use Roentgen's Great
Discovery, and with Success Enough
To Show Them the Feasibility of
the Idea.

The first experiments in Janesville
with Roentgen's great discovery of
the "X rays" was made this week at
the science department of the new
high school building.

Ever since this great discovery was
announced Professor D. D. Mayne and
Professor H. H. Brown have taken a
keen interest in its development, and
their attempt was the first attempt to
use the cathode rays in this city.

The used the Geisler tubes of
glass, their object being to produce
the X rays from them, and although
a number of plates were made, as yet
no distinct shadows have been pro-
duced. The future success of this ex-
periment is well established, they
think, although the recent experi-
ments were principally directed to-
ward determining what could be done
without complete apparatus, but
enough results were obtained to show
them the feasibility of the discovery.

ternoon when examined on the charge

FOX AND NAPOLEON.

The English Statesman Was Fascinated by the First Consul.

During the summer of 1802 Fox journeyed to Paris, where he was presented to Bonaparte early in September, says a writer in the Century Magazine. The English statesman was fascinated, and, although the first consul said nothing definite or precise, his visitor departed convinced that his host desired nothing but peace with a liberal policy, both domestic and foreign as far as was consistent with safety. But the attacks of the English Press became none the less virulent in consequence of Fox's favorable report or of his brilliant defense of France from his place in parliament. Toward the close of January Talleyrand remonstrated with Whitworth, at this time giving point to his remonstrance by a plump demand as to what England intended to do about Malta. Whitworth replied that he was without instructions and made an evasive answer, hinting that the king's opinion of the changes which had taken place in Europe since the treaty might be of importance in determining him as to the disposal of the island. This was the first official intimation that England did not intend to keep her promise.

A few days later Sebastiani returned from the east and on Jan. 30, 1803, the Moniteur published his thorough and careful report. It was a long document, fully explaining every source of English weakness in the orient and setting forth the possibilities of re-establishing French colonies in Egypt and the Levant. There was only one menacing phrase, but it expressed an unpalatable truth that "6,000 French troops could now conquer Egypt." The publication in England of this paper raised a tremendous popular storm and it has pleased many historians to regard Bonaparte's course as a virtual declaration of war. In reality it was merely a French Roland for the English Oliver. If England intended to keep Malta let her beware of her prestige in the east. Had Bonaparte intended to act on Sebastiani's report he certainly would not have published it. Of course, the English populace utterly failed to grasp so nice a point and the incident so strained the relations of France and England that all Europe saw the impending crisis—one or the other must consent to a modification of the treaty in respect to Malta or there would be war.

In Happy Paraguay.

The women have well-molded limbs, voluptuous, lustrous eyes and are of every color, from mahogany to the white and pink complexion of the fairest Anglo-Saxon. The dress of a Paraguayan woman consists merely of a snow-white tunic coming down to the knees and a white shawl. These women are bare-footed. They stalk through the streets with a soft, supple, panther-like tread that is most beautiful, for they do not indulge in high-heeled boots and stays but step out as Eve herself might have done, quite unimpeded by their simple dress, which is merely a short tunic tied round at the waist and adorned with the pretty native lace. These tunics have short sleeves and very low necks and reveal the statuesque shoulders and breasts rather more than would be considered delicate in Europe.

This mild race live principally on oranges, pumpkins, cassava and other fruits and vegetables, being almost vegetarians. Many are the virtues of these poor, brave Paraguayans; they are hospitable, kindly, honest, and though marriage is looked upon as an unnecessary prelude to two young people starting housekeeping together they are remarkably constant in their attachments. The Paraguayan girls are like Byron's savage heroines—faithful unto death, soft as doves, but ready to give up their lives for their mates. What I particularly remarked was the jovial, gay nature of this amiable and innocent race.—Exchange.

Not Such a Rich Find.

"I had a funny experience the other day," said Lawyer J. E. Delman of the Equitable building to a reporter. "It didn't seem funny at the time, but I can laugh at it now. I found about \$2 in silver and picked it up from the floor."

"That's pleasant," said a friend who was present, "but I wouldn't call it funny."

"Ah, but I went into a saloon with some friends and found half a dollar near the door, which I 'blew in' for drinks. I heard something drop and picked up two more quarters. Blew them in too."

"Then I felt a coin dropping down against my leg. Suddenly the truth flashed on me. I found a big hole in my pocket, out of which about \$2 in change had dropped. All the money I had picked up was my own and \$1 was lost altogether besides."—New York Journal.

More than It Was Worth.

Judge Walton, who presides over a court at Washington, is a man of grim humor. One day, in the lobby, a member of the bar was seeking to convey the impression to a group, of whom Judge Walton was the center, that his income from his profession was very large. "I have to earn a good deal," the lawyer said. "It seems a large story to tell, judge, but my personal expenses are \$6,000 a year. It costs me that to live." "That is too much, Brother S—," said the judge; "I wouldn't pay it—it isn't worth it."

The Fabric of a Dream.

The situations in which men frequently find themselves in dreamland was well illustrated by an Irishman, who, when recently relating a remarkable dream he had had, remarked: "Then I thought I was walking about naked, with my hands in my pockets."

HAD TO RELEASE THE PETS.

Soldiers Collected Specimens of Nearly All the Animals of the Country.

"There were some very amusing sights at Vera Cruz when the French and Belgian troops were evacuating that city and leaving Mexico for their foreign home after the collapse of the attempt to place Maximilian on the throne," said General Joe Shelby, the ex-confederate to a Kansas City reporter. "During the campaign in Mexico these troops had been pretty nearly all over the interesting portions of that wonderful country, and as they continually saw new wonders they were continually selecting novelties to carry back home with them. They had collected specimens of pretty nearly everything animate and inanimate that was in the country and every company was loaded with them. They had young mountain lions, ant-eaters, armadillos, birds of rare plumage, little animals and big ones, and curios galore, quite enough to load many wagons."

"The officers never intended the specimens should be carried away by the men, but they had hesitated to order them to dispose of their collections during their march for fear there would be trouble."

"But when they were ready to embark and leave Mexican shores the brigades were marched down to the wharf. They were lined up and ordered to ground arms. Then came the second order to release all animals held captive by the men. They were all lined up under the muzzles of the frowning cannon from the fort, and were unarmed, and there was nothing to be done but to obey the order, and the animals were released and such a collection as went skipping off was a surprise to the officers who were in command. The men had the smaller animals concealed beneath their capes and coats, perched on their shoulders and hidden in every other manner imaginable, and the whole collection resembled the march of Noah's collection in the ark. The men grumbled at the order, which they declared was useless and unreasonable, and went away without their pets. There were loads of curiosities left lying in a promiscuous heap on the wharf after the men left. It was one of the most novel sights I ever saw."

THE MAJAH'S TOAST.

A Little Incident of New York Day at the Atlanta Fair.

There was one toast drunk at that little dinner which Capt. Lourey gave to Mayor W. L. Strong at the Capitol City club in Atlanta to which only one man responded and he was the man who proposed it, says the New York Press. But what it lacked in the music of the clinking glasses it made up in its fervency and warmth.

All the evening the north and the south had been throwing oral bouquets at each other. The south had healed its old wound in the warmth of the captain's good wine and had pledged itself again and again to eternal friendship.

The north forgot all about Bull Run and Andersonville in the same bubbling elixir and returned the pledges with extravagant eloquence.

Then some one proposed a toast to the new south and every one had something to offer. Its praises were sung from one end of the mahogany to the other, and the new south, with its new vitality and its new prosperity, was extolled in prose and verse. They praised its wonderful energy and its deliverance from bondage.

And the man who drank the silent toast sat out in the cafe and listened. He was tall and gaunt and straight, with bushy bright eyebrows and a limp in his right leg. He got that when he was a major in the 13th Georgia and he had never forgotten that he was a major or that he was in the 13th Georgia. He listened to the eulogies of the new south as long as he could and then he limped over to the bar.

"Now, majah," he said, and a new light came into the old eyes, "you and I, sah, will drink to the old south, to her ol' shiflessness and her dog-gone happiness."

STATE OF WISCONSIN—County Court for Rock County—In Probate. Notice is hereby given that at a regular term of the county court to be held in and for said county at the court house, in the city of Janesville, in said county, on the first Tuesday, being the 3rd day of March, 1896, at 9 o'clock a. m. the following matter will be heard and considered:

Before the finished fruit come bud and blossom. Bud grows into blossom and blossom into fruit. And so girlhood merges into womanhood and the woman into motherhood.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times, Dr. Pierce's Favorite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womanhood are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favorite Prescription will not cure.

Like All Other Headaches, yields most promptly and pleasantly to... DR. KILMER'S Sure Headache Cure.

Gives speedy relief to all, no opiates and absolutely safe, producing no nausea, or unpleasant results, but invigorates, strengthens, causing a grateful feeling of physical energy, strength, mental vigor and activity.

Price 25 cents, Box 25 Doses. Try a Sample Package Free at All First Class Druggists or address DR. KILMER & CO., Sole Proprietors, South Bend, Ind.

Why She Never Scolds.
 "No," he said, "my wife never scolds when I am out late now. She used to, but she doesn't do it any more."
 "I wish mine wouldn't."
 "Oh, you can easily stop it, if you only know how. Just begin first, as I do. I think up something to scold about on the way home, and as soon as I open the door I begin. That puts her on the defensive, and I keep her explaining until there's no danger of an attack. All of these things are easy to an old campaigner, my boy."—Chicago Evening Post.

The Best They Could Do.
 "Don't you sometimes make a mistake and lynch the wrong man?" asked the visitor from the east.
 "We did once," replied the native, "but we offered to do the square thing by the widdler."
 "How was that?"
 "We told her she could take the pick of the crowd for her second husband."—Life.

He Had Tried It.
 "So you've been around the world?" said the admiring friend.
 "I have," replied the traveler.
 "And you've seen all the sights and tried all the sports?"
 "I have."
 "Did you ever try tiger hunting?"
 "I did."
 "Where?"
 "At Monte Carlo."—Chicago Post.

She Reversed the Order of Things.
 When I am dressing," said Miss Fossick, "I always put on my shoes and stockings first."
 "I don't," replied Miss Kittish.
 "Don't you? What do you put on first?"
 "My stockings and shoes."—Town Topics.

The Supreme Test.
 The neighbors all declare that he is blissfully enraptured.
 And likewise they declare that she, (the lucky soul) has captured the kindest husband in the land.
 And no one dares to doubt it.
 For he wears the home-made shirt she planned.
 And never swears about it.
 —L. A. W. Bulletin.

Agreed with Her.
 "What nonsense," said she, "all this talk is about girls being allowed to encourage bashful young men, one year out of every four."
 "Yes," replied Willie Washington, "just as if they didn't whenever they felt like it, leap year or no leap year."—Washington Star.

Why Did It Fail?
 "The cause of death," said the physician, "was heart failure."
 "That was what I supposed," replied the young man. "Most of us die of heart failure, but what I am anxious to learn is what caused his heart to fail."—Chicago Evening Post.

Hurt His Business.
 "Say, boss, haven't you an old overcoat you can give a feller?"
 "Why, that's a fine coat you have on."
 "Yes, dat's de trouble, boss. It's too fine. Nobody will give me anything on account of me fine coat."—Harper's Bazar.

The Silver Lining.
 "Stammering is an awful affliction," remarked the young woman.
 "Still, it has its advantages," said the society young man. "Fellow doesn't need more than two or three ideas to keep him talking a whole evening."—Indianapolis Journal.

The Modern Play.
 He is a little modest thing,
 And she a villain bold;
 And that is where the modern play
 Is different from the old.
 —Town Topics.

STARTED HIM ANYWAY.

Willie—If there was a war in South Africa you would go, wouldn't you?
 Cholly—No, Willie, I don't think I would. Why do you ask?
 Willie—Cause I heard Sister Annie say the other day that you was a bore.
 —N. Y. World.

Not a Novelty.
 She—Did you go to see the pantomime by that French company?
 He—Well, every play I ever saw by a French company was a pantomime to me.—Puck.

Open to Question.
 "Young man," said the merchant to the prospective office-boy, "are you fairly well educated?"
 "I be," replied the boy, proudly.—Judge.

How He Gets Relief.
 "Henpeck has bought his wife a bicycle. Shrewd fellow, that Henpeck."
 "Shrewd?"
 "Yes, he gets a rest now. She blows up her tire."—Town Topics.

A Popular View.
 "What invention do you think would do the world the most good?"
 "Oh, by all means, a machine that would obviate getting up in the morning."—Chicago Record.

Dress Reform.
 It matters not though doctors may
 Declare that it will kill,
 The awful corset's here to stay
 And stay of corset will.

Miller,

"Have a good hat; the secret of your looks
Lives with the beaver in Canadian brooks;
Virtue may flourish in an old cravat,
But man and Nature scorn the shocking
hat;
Does beauty slight you from her gay abodes?
Like bright Apollo you must take to

Mount the new castor,—ice itself will melt;
Boots, gloves may fall; the hat is always
felt."
